

Docket 02-227, Broadcast Ownership Rules

Please make changes to ownership rules that will result in LESS CONSOLIDATION of Broadcast Stations. Any arguments that there are more opportunities than ever before to obtain news, entertainment, and/or information is irrelevant. The goal is to MAXIMIZE the diversity, quantity, and quality of the sources of news, entertainment, etc..

The FCC has the job to protect the public and national interest. Do not get side-tracked, no matter how intellectually interesting.

Thank you, Norman Stone
